

Make Germany that crucial piece of your international research career

A Capes-Humboldt Research Fellowship offers you the opportunity to conduct your own research in Germany. Become a member of a worldwide network.

Together, the Alexander von Humboldt Foundation and the Brazilian funding organisation CAPES (Coordenação de Aperfeiçoamento de Pessoal de Nível Superior) sponsor highly qualified researchers of all disciplines from Brazil.

If you would like to do research with specialist colleagues in Germany and develop long-term collaborations, submit an application. You are free to choose your own academic host at a research institution in Germany.

With the fellowship, you will receive up to 3,100 EUR per month plus comprehensive additional benefits, such as family allowances, German tuition and a subsidy towards travel expenses.

You will become a member of the Humboldt Foundation's worldwide network and profit from tailored alumni sponsorship opportunities, which will continue to support your cooperation with specialist colleagues in Germany – for an entire lifetime.

Application documents and more information: www.capes.gov.br/cooperacao-internacional/alemanha/humboldt
