MALANG HUMBOLDT RESOLUTION
July 11, 2011

1) Humboldt-Alumni in South East Asia belong to the active group of individuals highly qualified in research with experience in international collaboration who play a major role in further development in their respective countries.

2) Humboldt-Alumni are open to multidisciplinary research and collaborative programs which should help in the continuous upgrading of quality of human resources in science, technology, arts, humanities and innovation in the region.

3) Humboldt-Alumni in South East Asia will identify the research thrust areas for possible mutual collaboration through the exchange of scholars and scientists among their research groups.

4) Humboldt-Alumni act as the catalyst in bringing together the multi-lateral industry-industry interaction mediated through the local academia-industry collaborations.

5) Humboldt-Alumni will take advantage of the local financial resources in Research and Development to facilitate students and faculty exchange within the region. This would enable future networking efforts within the region focusing on the higher education sector.

6) Humboldt-Alumni are to redefine the concept of “brain-drain” and “brain-gain” by adopting the concept of “brain-sharing” and “brain-circulation”.

7) Humboldt-Alumni in South East Asia will foster professional advancement among the young scholars/scientists and encourage them to apply for one of the fellowships of the Alexander von Humboldt Foundation.

8) Humboldt-Alumni will take advantage of the alumni sponsorship programs of the Alexander von Humboldt Foundation and will advise the Foundation regarding new funding schemes.

9) Humboldt-Alumni in South East Asia will establish and actively involve in a group on the “Alumni Portal Deutschland” for further exchange and activities (www.alumniportal-deutschland.org).

10) Humboldt-Alumni will continuously contribute to the growth of quality of human resource development.
