ComLab#4: Smart New Worlds: How AI, Robotics and Digitalisation Transform Our Lives

5 – 6 November & 12 – 13 November 2021, Digital Workshop

Take Home Task: Pool of Methods

For our session “Pool of Methods” we would like to invite you to exchange ideas and share your knowledge with your fellow ComLab participants on methods of science journalism and science communication. Are you proficient in a particular video, blogging or graphic tool that might be useful in designing your joint project? Have you used infographics, visuals or animated elements in your research? Do you have recommendations with regard to your journalistic field of expertise (radio, television, blogging, print, online features etc.) or interesting sources and material you can recommend to the others? The session is meant as an informal exchange. You can but you don't have to prepare a short presentation (5 minutes max.). **We kindly ask you to think about possible topics for the session on 12 November 2021.** We will talk about it in more detail at the end of our first workshop weekend. Let's get started with our own ComLab brain pool!
