Digital Communication Lab for Exchange between Research and Media

13 – 14 May & 20 – 21 May 2022, Virtual Event

The New Global – Cooperation for the Future

Without sharing ideas, goods and common human values around the world, our lives would be much poorer and even endangered. The global movement of people, raw materials and innovations changed our lives for the better and continues to do so. Yet, the pandemic, political upheaval, and resource dependencies pose new challenges to the idea of a collaborative international community. They are reminding us that resources are finite, and the global community is vulnerable, raising the question as to what the future of globalisation and exchange will look like.

What lessons can be learned from current crises? How can goods and ideas be shared globally in a sustainable, fair and more secure way? What opportunities are inherent in digital infrastructures and services? How should we envision human mobility, work and migration? How can we respond to increasing political isolationism and nationalist ideologies?

The fifth Communication Lab wants to explore the future of global exchange in its political, social, economic, and ecological dimensions. Science and the media can point the way to innovative approaches and best practices for our future global community.

The programme is financed by:

Federal Foreign Office

Preliminary Programme

The times indicated refer to CET
(Central European Time)

13 May 2022

- 09:00 **Welcome**
Stephanie Siewert, Alexander von Humboldt Foundation
Martina Johns, International Journalists' Programmes
- 09:10 **Official Opening**
Vito Cecere, Federal Foreign Office Germany
Enno Aufderheide, Alexander von Humboldt Foundation
- 09:45 **Meet & Mingle / Practical Exercises**
- 11:45 **Goals and Expectations**
- 12:00 Break
- 13:00 **Opening Keynote: From Global Crisis to a Better World**
