

## **Humboldt Research Professorships**

### **Guidelines for drafting your statement as Cooperation Partner**

Your statement serves to illustrate your view of the nominee's international excellence. It should convince your specialist colleagues that the academic you are nominating is the right candidate for a Humboldt Research Professorship. Please address the following aspects (if applicable):

#### **Nominee**

- The nominee's international reputation and their personality in general, in comparison to other researchers at a similar career stage
- Recognised theories, insights or discoveries that they have achieved as well as their impact on the immediate and broader field of specialisation
- Assessment of their publication activity, especially in the past five years

#### **Cooperation**

- Research interests you share with the nominee
- Relevance of the provided key publications to the proposed project
- Synergies of the planned research project with the research at your institute
- Integration of the nominee into your institution and involvement of other colleagues in the cooperation
- Existing resources at your institution (with relevance to the cooperation)
- Expected interaction with the nominee's group at their home institution
- Significance and level of innovation of the proposed research
- Potential for long-term cooperation beyond the duration of funding
