Philipp Schwartz Forum

Programme

9 – 10 April 2026 | Berlin

Agenda

Convened by the Alexander von Humboldt Foundation's Philipp Schwartz Initiative, the Philipp Schwartz Forum 2026 brings together up to 350 participants in Berlin and online, including Philipp Schwartz and MSCA4Ukraine fellows as well as academic mentors and project leads. The 2026 Forum will review ten years of support to at-risk scholars provided by the Philipp Schwartz Initiative while also turning the attention to the challenges that are shaping the years to come.

The Philipp Schwartz Initiative is funded by the Federal Foreign Office, with additional financial support by the Mellon Foundation, the Gerda Henkel Foundation, Stiftung Mercator, and the Buschmann-Simon-Treuhandstiftung. The Foreign Office also funds the Forum, with additional funding provided by the MSCA4Ukraine programme financed by the European Union. The Forum aims at offering and strengthening networking opportunities for researchers at risk and all those supporting them, at local, national or international level. Researchers, policymakers, administrators and other stakeholders will discuss attacks on academic freedom, civil society and democracy in various regions of the world. Researchers at risk will share their expertise on and experiences with recognizing and resisting these trends.

The Forum will also address the challenge of re-building sustainable perspectives for scholars who were forced to leave their working places and their homes due to very personal threats and risks incurred in their home countries. A particular focus will be placed on mutual learning opportunities for at-risk scholars, mentors, and host organisations working to support at-risk researchers and to strengthen academic freedom. Participants are invited present their perspectives on institutional, national, European and global initiatives to promote academic freedom and support scholars.

Please note that this event is by invitation only and requires advance registration. The conference language will be English. Parts of the programme will be available online via online streaming on 9 April. The times indicated represent Central European Summer Time.

The Philipp Schwartz Initiative

The Philipp Schwartz Initiative of the Alexander von Humboldt Foundation supports researchers who are at severe risk from politically motivated persecution or armed conflict. Since 2016, the initiative has been granting funding to universities and research institutions in Germany to host researchers at risk for a period of two years. The host institutions receive funding that completely covers the costs of a research fellowship. Sponsorship can be extended by one year under a co-financing model. In addition, the host institution is granted an allowance of € 20,000 per fellowship. This financial support is complemented by advisory services for fellows, academic mentors and host institutions. The additional services include the annual Philipp Schwartz Forum, which has been established as a platform connecting researchers at risk, host institutions and relevant partner organisations for networking and mutual advice. So far, approximately 670 researchers from 31 countries have been supported through the Philipp Schwartz Initiative and its special initiatives for Iranian, Afghan and Ukrainian researchers. More than 45 researchers have been supported with short-term bridge fellowships.

The Philipp Schwartz Initiative is funded by:

Pressures on researchers and academic institutions have increased significantly in the recent past. Over the past ten years, the Philipp Schwartz Initiative of the Federal Foreign Office and the Alexander von Humboldt Foundation has provided support to researchers at risk and worked to strengthen academic freedom. Taking the Initiative's ten-year anniversary as a starting point, this session will look ahead at the next ten years: What will be relevant long-term trends and what will be needed to support researchers and safeguard academic freedom in Germany, Europe and beyond? What is the difference that networks gathered by and around the Phillip Schwartz Initiative can make?

15:30 – 16:30 _____ **Coffee Break and Poster Session** _____ **First Floor**

Chair:

Maïke Didero, Alexander von Humboldt Foundation

Academic networks, such as the Humboldt network, are essential for international scientific collaboration and intercultural dialogue. In the context of post-conflict higher education systems academic diaspora networks can be of particular relevance: for example, through cooperation, mentoring, or providing expertise to stakeholders on all sides. This session will focus on the impact that can be made when researchers in and from post-conflict societies join forces and leverage the power of diaspora networks both for their members as well as research systems and communities at large.

09:00 – 13:00 — **TRACK 1: Workshops and Trainings for Researchers**

1a: Proposal Writing and Third-Party Funding Acquisition:

Advanced Career stage > Annette Kolb _____ HFB, Conference Room III

This workshop is open for participants within an advanced career stage, who have gained experience in the academic system for 3+ years after PhD. It will provide important information on the logic and structure of a „typical“ proposal with the focus on the leading funding programs in Germany (DFG, BMBF, larger foundations).

1b: Proposal Writing and Third-Party Funding Acquisition:

Early Career stage > Philipp Gramlich _____ DoE, Conference Room 104A

In this workshop, we will work on writing grant proposals for early-stage researchers: Individual scholarships and smaller travel or research grants. The main challenge is that grant proposals have to address a readership from a broader set of backgrounds than is the case for papers.

1c: Academic Writing > Matteo Garavoglia _____ HFB, Conference Room II

The seminar aims to support participants in improving their academic writing to stand out from the crowd by producing clear, engaging and persuasive text. Emphasis is put on structuring academic papers, writing abstracts and revising papers to allow for smooth reading.

1d: Strategic Networking – how to make your research visible

> Eva Reichmann _____ DoE, Conference Room 102

This workshop is designed to help participants find individual ways that suit them personally in order to create and expand upon existing and future networks and contacts.

1e: Navigating the German Research Landscape and your Career outside Academia > *Christine Kohistani* _____ HFB, Lecture Hall A

This workshop provides support in gaining a clear picture of career requirements and personal development opportunities in the German academic system as well as on the labor market outside academia.

1f: CV-Writing for Academia & Other Sectors as Part of Your Career Strategy > *Anne Schreiter* _____ HFB, Conference Room I

In this workshop, you will learn to align your CV with your career goals, explore German CV and Cover Letter standards, differentiate academic and non-academic formats, communicate your skills effectively, and leverage LinkedIn for your career development.

1g: Career Development for Researchers at Risk > *Ulrike Schneeberg* _____ HFB, Sitzungssaal

This interactive workshop offers participants a facilitated space to reflect on medium-term career goals beyond the PSI funding period. Building on personal values and data about academic career paths in Germany, you will be invited to make active career decisions for or beyond academia, plan concrete steps, and try out methods to transfer your scientific skills to careers in industry or the public sector. Attendance for this workshop is particularly recommended for scholars at risk who have recently started their fellowship in Germany.

09:00 – 13:00 _____ **TRACK 2: Researcher-Led Workshops for Researchers, Academic Mentors and Host Institution Project Managers**

Chair:

Viktoriiia Gorbunova, MSCA4Ukraine Alumna, University of Luxemburg

Speaker:

Cedric Sachser, Ulm University

This interactive, participation-focused workshop will explore the primary sources of stress and mental health challenges that affect at-risk and exiled researchers. Our aim is to identify practical approaches and resources that can empower researchers to continue their work effectively in new environments and overcome barriers to their socio-academic engagement. One key tool presented is the Universal Mental Health Training (UMHT), an evidence-based programme grounded in international guidelines to support personal resilience. The workshop is open to all researchers and host institution representatives interested in this topic.
