„1.000-Köpfe-Plus“-Programm / Global Minds Initiative Germany

The Global Minds Initiative Germany offers international researchers career prospects in the German science system.

The BMFTR initiative sees itself as offering a safe haven for freedom of research.

The initiative enables AvH and DFG to offer additional scholarships within the framework of existing funding programs and to invite top researchers to Germany.

The internationally renowned support programs offered by both organizations enable a quick start to a career in Germany

The DFG and AvH programs address different career stages

DAAD

Deutscher Akademischer Austauschdienst
German Academic Exchange Service

The offers are supplemented by accompanying, structure-promoting measures by the DAAD for students and doctoral candidates.

PROJECT PROPOSAL

The proposal should be around 10 to 15 pages long and include information on:

- Project concept and background
- Significance of proposed research, methodology, and work plan
- Collaborations with host institute(s)
- Supervision of the research group and time spent in Germany
- References
- any other information deemed important

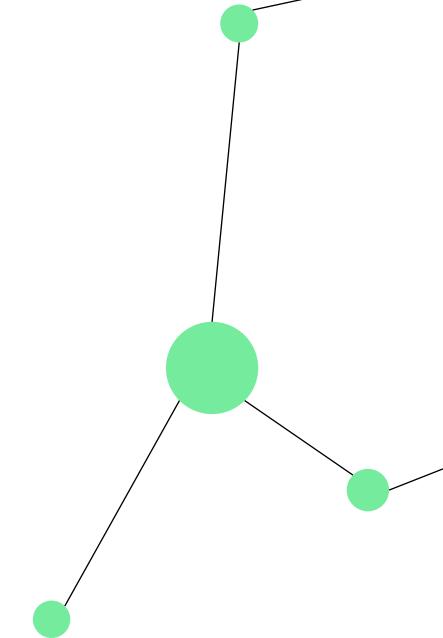

STATEMENT OF THE COOPERATION PARTNER

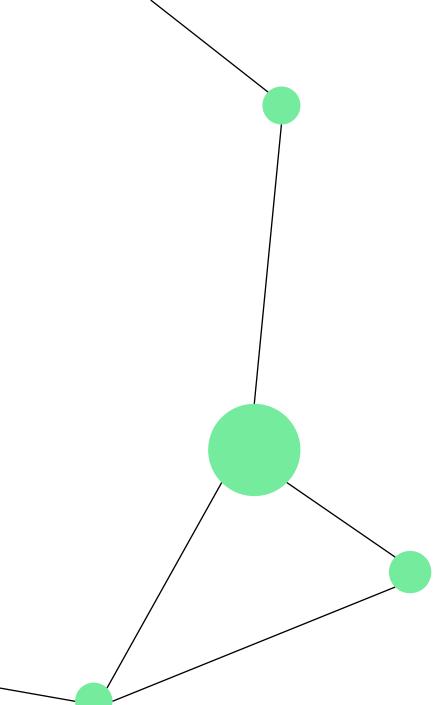

Nominee

- The nominee's **international reputation** and their personality in general, in comparison to other researchers at a similar career stage
- **Recognised theories, insights or discoveries** that they have achieved as well as their impact on the immediate and broader field of specialization
- Assessment of their **publication activity**, especially in the past five years

Cooperation

- Research interests you share with the nominee
- Relevance of the provided key publications to the proposed project
- Synergies of the planned research project with the research at your institute
- Integration of the nominee into your institution and involvement of other colleagues in the cooperation
- Existing resources at your institution (with relevance to the cooperation)
- Expected interaction with the nominee's group at their home institution
- Significance and level of innovation of the proposed research
- Potential for long-term cooperation beyond the duration of funding

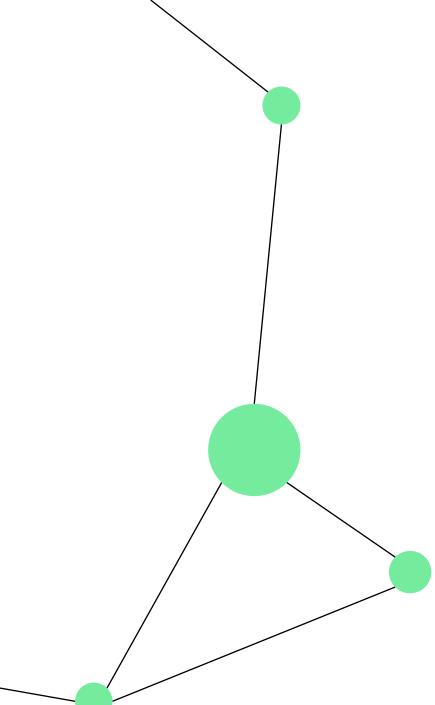

SELECTION CRITERIA

- **Convincing Nominee** with respect to previous research: recognized theories, publication record. Relative to career stage and taking into account the subject culture.
- **Convincing Cooperation**: Common topics; existing resources at host institution; significance and level of innovation of the proposed research.
- **Convincing Integration**: Appropriate visits in Germany planned; interaction with home institution (if applicable); involvement of other individuals at the host institution; potential for collaboration beyond the funding period.
- **Two programme lines** for better comparability, but each application is assessed individually and same selection criteria

SELECTION PROCEDURE

- Submit nominations
- Preliminary selection of potential candidates is made by independent selection committee (spring)
- Notifications of nominating institutions concerning the nomination's status
- External independent peer review of the shortlisted nominations
