INTERNATIONAL CLIMATE PROTECTION FELLOWSHIPS

For prospective leaders and postdocs with climate expertise from transition and developing countries interested in conducting a project in Germany

The fellowship allows climate experts to spend up to two years in Germany working on a project of their own choice in the field of climate protection. Fellows are free to choose their own hosts. Submit an application if you come from a non-European

transition or developing country and you are involved with issues relating to the scientific, engineering, legal, economic, health-related or social aspects of climate change. The fellowships are funded under the German government's International Climate Initiative (IKI).

The closing date for applications is **1 February**. The fellowship will begin on 1 March of the following year.

Requirements

- academic degree (Bachelor or comparable degree) during the last 12 years
