This could be your opportunity
In Germany, you will discover a research landscape that offers you everything you want to promote your research and your career. A research fellowship from the Alexander von Humboldt Foundation allows you to cooperate with the best academics in all disciplines and choose from more than 300 internationally respected research institutions.

What we do for you
If you are a top-flight scientist or scholar anywhere in the world, we will sponsor you to come to Germany on an extended research stay so that you can work together with German colleagues.

What you have to do for yourself
Find a collaborative partner in Germany and submit an application. Academic excellence is our sole criterion. We do not have any quotas for individual countries, nor for specific academic disciplines.

Welcome to the network
The Humboldt Network connects more than 26,000 Humboldtians worldwide. Join them and benefit from the contacts and wealth of sponsorship opportunities even after your initial stay in Germany has come to an end.

Contact us at info@avh.de or visit our website for further information.

Exzellenz verbindet – be part of a worldwide network.
