

Programme Information

Georg Forster Research Fellowships for experienced researchers

In providing Georg Forster Research Fellowships for **experienced** researchers, the Alexander von Humboldt Foundation enables highly-qualified scientists and scholars from abroad, who **completed their doctorates less than twelve years ago**¹ to spend extended periods of research (6-18 months; may be divided up into a maximum of three blocks) in Germany. Candidates are expected to have their own, clearly defined research profile. This means they should usually be working at least at the level of Assistant Professor or Junior Research Group Leader or be able to document independent research work over a number of years.

The research fellowship programme is financed by the Federal Ministry for Economic Cooperation and Development (*Bundesministerium für wirtschaftliche Zusammenarbeit und Entwicklung* – BMZ).

Scientists and scholars from all disciplines from developing countries, emerging economies and transition states (excluding People's Republic of China and India; c.f. [detailed list of countries](#)) may apply. The research outline must deal with issues of major relevance to the future development of the candidate's country or region of origin.

The research is carried out in cooperation with academic hosts at research institutions in Germany. Applicants choose their own topic of research and their host in Germany and prepare their research outline independently. Details of the research outline including information on the intended duration of the fellowship must be agreed with the intended host before applying. The duration of the research fellowship (6-18 months) may be divided up into a maximum of three visits lasting a minimum of three months each. No more than 36 months may elapse between the beginning of the first stay and the end of the last stay. Short-term visits for study and training purposes or for attending conferences are not eligible for sponsorship.

Candidates are selected solely on the basis of the evaluation of their academic qualifications. There are no quotas for individual disciplines or countries. A candidate's academic eligibility is assessed on the basis of the following criteria:

- academic record and academic performance to date (mobility, determination, breadth of research activities, academic productivity)
- quality of key publications specified in the application (originality, degree of innovation, applicant's contribution in cases of multiple authorship)
- originality and innovation potential of the suggested research outline (significance for the advancement of the discipline, convincing choice of academic methods, prospects for academic development of the applicant, clear focus and feasibility of realization within the requested funding period and at the chosen host institution)
- the applicant's future potential (academic potential, further academic development, career prospects, prospect of a professorial appointment).

Applications are assessed on the basis of independent peer reviews requested by the Humboldt Foundation. The final decision is taken by a committee composed of academics from all disciplines in the framework of the funding available.

¹ Researchers who completed their doctorates less than four years ago may apply for "Georg Forster Research Fellowships for postdoctoral researchers".

Fellowship specifications

The fellowship is worth 3,150 EUR per month. This includes a mobility lump sum and a contribution towards health and liability insurance.

Additional benefits for research fellows:

- **lump sum** for the fellow's return **travel expenses** if the costs are not borne by a third party;
- **language fellowship** for an intensive language course lasting two to four months at selected language institutes in Germany **immediately prior to** the actual period of research; language fellowships may also be granted to accompanying marital partners;
- **family allowances** for accompanying family members staying at least three months (monthly allowance: up to 326 EUR for marital partners and up to 240 EUR for each child);
- **for single-parents: flat-rate allowance** for accompanying children (under the age of 18) for stays of at least three months (400 EUR per month for the first child and 100 EUR per month for every additional child);
- **additional extension** of the fellowship up to 12 months for research fellows accompanied by children under the age of 12
- **a subsidy towards research costs** to be paid to the hosts in Germany amounting to 800 EUR per month (for research in the natural sciences and engineering) and 500 EUR (for research in the humanities and social sciences);
- **Europe allowance** for a research stay at a research institute in another European country (though not the research fellow's own country); for a designated period in the course of the fellowship if necessary to ensure the success of the research;
- **extensive alumni sponsorship** once a successful research stay has come to an end, especially for maintaining contacts with collaborative partners in Germany during the Humboldtian's entire academic career.

Application requirements

1. **Doctorate** or comparable academic degree (Ph.D., C.Sc. or equivalent) completed less than twelve years prior to the date of application. If it is not possible or customary to take a doctorate in the candidate's subject or country, an application may be submitted up to 16 years after completing a Master's or Diploma degree, provided that the publication record is commensurate with the candidate's career stage.
2. The candidate's **own research profile** documented by a comprehensive list of **academic publications** reviewed according to international standards and printed in journals and/or by publishing houses.
3. Choice of a **research outline of major relevance to the future development of the candidate's country of origin or region of origin**
4. **Confirmation that research facilities are available and mentoring agreement** and a **detailed expert's statement** by an academic host at a research institution in Germany.
5. **Two expert reviews** from important collaborative partners and/or academics from the candidate's own institute and, if possible, from abroad.
6. **Necessary language skills:** humanities or social sciences and medicine: good knowledge of German if it is necessary to carry out the research successfully; otherwise a good knowledge of English; natural sciences and engineering: good knowledge of German or English.
7. **Citizenship** as well as **principal place of residence and work in a developing country, emerging economy or transition state** (excluding People's Republic of China and India, c.f. [detailed list of countries](#)). Eligible applicants must have lived in an eligible country ([detailed list of countries](#)) for a minimum of 12 months in the 18-month period prior to submission of the application. If you are not resident in an eligible country at the time of application, you must additionally have a permanent job in one of the countries on the list of countries.

Eligible applicants must have lived outside Germany for a minimum of 12 months in total in the 18-month period prior to submission of the application.

Candidates who have completed their school education and one university degree or one university degree and their doctorate in Germany are eligible to apply provided that their habitual place of work and residence has been located in a developing country, emerging economy or transition state on the assumption of permanence and at least for the last five years. Visit the FAQs on the website for additional information.

Academics who have already been sponsored by the Humboldt Foundation are not eligible to apply for the Georg Forster Fellowship Programme but should turn to the Foundation's Alumni Programme for support for further research stays.

Application and selection procedure

Applications can only be submitted online. The completed application form, including the necessary additional documents, should be submitted at least four to seven months ahead of the prospective selection date.

Visit the Alexander von Humboldt Foundation's [website](#) for further information on the online application process and all necessary documents as well as access to the online application system. A confirmation of receipt will be issued after the application has been submitted.

The expert reviewers as well as the host should send their statements directly to the Humboldt Foundation.

Applicants are responsible for ensuring that their documents are complete. Incomplete applications will be excluded from the selection procedure.

After providing all the documents and receipt of the host's statement, applicants will be notified about the proposed selection date. The application documents will then usually be forwarded to two independent reviewers for written review. On the basis of these independent peer reviews a selection committee composed of about 15 academics from all disciplines reaches a decision on approving research fellowships. The selection committee meets every year, in February, June and October. If an application has been approved, a fellow arriving from abroad may start the fellowship two months after the selection meeting at the earliest. Fellows must start their fellowships within twelve months of the selection meeting; otherwise the fellowship will be forfeited.

After a notification about a negative selection decision, candidates may apply informally by email to be informed about the factors which led to the rejection. In this case, applicants and their hosts will receive notification on this issue approx. four to six weeks after the selection committee meeting. It is not possible to appeal. However, applicants who have been rejected may submit a revised application provided that fundamental aspects of the original application have been significantly improved. In the case of unanimously rejected applications, a new application will be accepted only after 18 months.

Further information on the selection procedure can be found in the [FAQ](#) on the Humboldt Foundation's website as well as in the guidelines for a complete application attached in the application form.

The Humboldt Foundation assumes that candidates will abide the [Rules of Good Scientific Practice](#) and the legally binding principles of scientific ethics during the application and sponsorship periods. For further information on this, please refer to section D of the [Guidelines and Information for Research Fellows](#), which also include further details pertaining to the fellowship and to the research stay.
